## ***Nursery Stock Catalog - March 12, 2016***

*Deal's catalogs are current as of the date of publication. Looking for landscape and gardening materials? Download our Landscape and Gardening Materials Catalog.*

*We can deliver nursery stock to your home (limited service area) - please call (937) 426-2118 to check availability and delivery fees.*

Landscape plant selections change continually. We will likely have many plants and varieties that are not included here. However, inclusion on these lists does not mean we will have the items available at any given time or season. Please call 937-426-2118 or email us with specific requests.

**Solomon's Seal** - Variegated (Polygonatum odoratum Variegatum)

**Switchgrass** (Panicum) - red, blue and gray

**Zebra Grass** (Miscanthus sinensis zebrinus)

### ***Vegetables, Herbs & Fruits***

We grow organically! Our selection of herbs and vegetables changes slightly each year, but here's a list of vegetable starts we should have in the early spring: broccoli, red & green cabbage, kale, several varieties of lettuce and onion plants.

Later in the season, our selection may include celery, cucumbers, eggplant, ground cherries, melons, lots of peppers, pumpkin, squash, tomatillos, several varieties of tomatoes and watermelon. For herbs, we hope to have several types of basil, including globe and Sweet Genovese, chives, cilantro, dill, oregano, parsley (plain leaf and curled), sage, rosemary, and thyme.

We also offer organically grown seed potatoes in several varieties.

Our Blog page will list available varieties as they become available.
